Re: Notice of *Ex Parte* Communication, PS Docket No. 12-94

Dear Ms. Dortch:

On June 26, 2012, Kevin Krufky, Vice President, Public Affairs, Americas Region and the undersigned, of Alcatel-Lucent, met with Commissioner Jessica Rosenworcel and Paul Murray of Commissioner Rosenworcel's office. In the meeting, Messrs. Krufky and Marks described Alcatel-Lucent and its role as a leader in mobile, fixed, IP and optics technologies, and a pioneer in applications and services, in the United States and throughout the world. Messrs. Krufky and Marks also broadly advocated that the Commission continue its efforts to allocate spectrum to terrestrial broadband services.

With respect to specific matters before the Commission, the meeting attendees discussed the forthcoming nationwide public safety broadband network. The Comments submitted by Alcatel-Lucent in PS Docket 12-94 on April 20, 2012 served as the basis of that discussion. Alcatel-Lucent stressed that Commission authorizations for early deployments should provide a level of certainty that the Commission, the National Telecommunications and Information Administration and the First Responder Network Authority (FirstNet) will work to ensure a seamless transition from early deployment to FirstNet.

Please contact the undersigned with any questions in connection with this submission.

Respectfully submitted,

/s/

Jeffrey A. Marks
Senior Counsel – Director
Public Affairs, Americas Region
